LIVING WITH ALZHEIMER’S SERIES – YOUNGER-ONSET

When someone under 65 is diagnosed with younger-onset Alzheimer’s disease or related dementia, the first reaction is often shock or denial.
- This doesn’t happen to someone so young, does it?
- What does the diagnosis mean?
- What kinds of plans need to be made for everyone?
- What about work?
- What resources are available to help?

This 3-part series is intended for care partners & their loved ones living with younger-onset Alzheimer’s or related dementia to take part in together.

August 18 | August 25 | September 1
All sessions take place from 6:00 – 7:30pm EDT
Click HERE to learn more.

LIVING WITH ALZHEIMER’S SERIES – MIDDLE STAGE

This program is being offered from the Illinois Chapter as part of a regional program collaboration.

August 26 | September 9 | September 16
All sessions take place from 1 – 2pm EDT

In the middle stage of Alzheimer’s disease, those who were care partners now become hands-on caregivers. Join us for this 3-part series and hear caregivers and professionals discuss helpful strategies to provide safe, effective and comfortable care in the middle stage of Alzheimer’s.
